

Aging Aircraft Workshop

- **New SDR Rule has been rescinded.**
- **The old SDR Rule, 121.703, will remain in effect.**
- **Part 121.703(e) states in part “The certificate holders shall submit the reports required by this section on a form or in another format acceptable to the Administrator.”**

Aging Aircraft Workshop

JASC Code

Joint Aircraft System/Component

- The JASC Code Table is a modified version of the Air Transport Association (ATA) Spec 100 Code. It was developed in 1991 by AFS-600 for technical classification of SDR's.
- The JASC Code Table contains abbreviated titles that clarify the intended use of the code.
- ATA Spec 100 Codes contain three (3) digits -- JASC Codes use a four (4) digit format.

Aging Aircraft Workshop

- **For Example: In ATA chapter 24, Electrical Power, the JASC Code for Electrical Power System Wiring is 2497. In chapter 29 Hydraulics, the JASC Code for Hydraulic Power System Wiring is 2997.**
- **The JASC Code Table and Definitions can be found on FAA website <http://av-info.faa.gov>.**
- **If you have questions regarding the JASC Code not answered on the website, please contact FAA Regulatory Support Division, Aviation Data Systems Branch (AFS-620).**

Aging Aircraft Workshop

Continuous Analysis Surveillance System (CASS)

- **Data Collection**
- **Develop CASS Model**
- **Draft Advisory Circular**
- **Develop Prototype CASS Training Curriculum For FAA**

AC 120-77 Maintenance and Alteration Data

- **Effective October 7, 2002 - Describes means by which operators may apply the special provisions of Part 43, section 43.13(c).**
