American Airlines Safety Policy

For all of us at American Airlines, our first and top priority is the safety and security of our co-workers and customers. We strive to be a world leader in safety and recognize that running a safe operation is the key to our success. We are committed to a culture that has safety, security, and quality as fundamental priorities.

To achieve these priorities, we rely on our Safety Management System and the sound judgment and experience of our people. Safety must be the first and foremost consideration in every decision and in every facet of our company.

We all have a role in maintaining a safe and injury-free workplace, and continually improving safety throughout our operation. It is everyone's responsibility to report hazards and incidents; and to ensure adherence to company policies, industry standards, regulatory requirements, and the laws of the countries in which we operate.

Thank you for your continued efforts in promoting a positive safety culture and working together to prevent injuries and accidents.

Tom Horton
Chairman, President, and CEO
AMR Corporation and American Airlines
